GALVESTON, Aug. 14, 1844.
The steamship Republic leaves here for New. Orkans to day. The Yellow Fever has prevailed here to some extent since the 4th of July, but has now almost entirely abated. Upward of 150 deaths have occurred, but the fatality has been confined pretty much to European emigrants. There have been some cases also in Houston. but the country is generally healthy. There never was a better prospect for fair Crops of every description, especially of Corn. The Cot. in crop is much better than it ever was known phe in the country, and the planters are busily egaged in picking. We have peace through. solour country. Reports reached here a few days seo (and unfortunately found their way into the gwspapers.) that Corpus Christi had been atneked by the Camanches and several of the citigens of that place killed. This has been contraficted to day by a gentleman who arrived here hat night directly from that vicinity. The Injims had been hovering around that place, but and made no attack. Santa Aña is again making his idle threats against Texas-they are pstregarded here. If he comes we will try and gire him a cordial and warm reception. In 1835 be said he would "drink of the waters of the Sa line, and continue his march to Washington City." He did both-not as the conquering hero. but as a Texan prisoner. If we get him into our possession ugain, he will not be allowed to

Our Presidential Election does not excite much interest, it being pretty weil settled that Hon-Asson Jones, the present Secretary of State. will be elected by an overwhelming majority .-He is well qualified for the office-a man of undoubted integrity and transcendant abilities-he has filled several highly important offices with credit to himself and the country. No man is more richly deserving of the confidence of his countrymen, and no man has it to a fuller extent. The steadlast friend and warm supporter of Gen Houston and his policy generally, if elected will,do all in his power to carry out what Houston has so nobly begun.

The trial of Commodore E. W. Moore has not ret been brought to a close. It has been very tedious owing to the great difficulty of getting solarge a number of witnesses to attend as have been summoned. It must be closed in the course of a few days, when I will forward to you the There has been a good deal of sickness in Washington, which has retarded the proceedings of the Court. Every thing has been thoroughly examined, though it has been no small undertaking to wade through the immense mass of evidence taken in the case. Our Navy is being refitted to some extent. Gen Murphy the late Charge from the U. States, and A. M. Green, Esq. late U. S. Consul, have both died here, as you have no doubt seen from the papers, within a short time of each other. Gen. T. A. Haivard, the present Charge, has arrived, and is now at Washington. He has made a very farorable impression here, and will no doubt fill the office with great credit to himself and with honor to his country. No appointment has as yet been made of Consul to supply the vacance occasioned by the death of the late lamented Mr Green. He was universally respected and es-

PHILADELPHIA, Sept. 6. At 10 o'clock this morning the Convention met and was opened by prayer, after which the choir performed a solemn hymn, when Rev. the rules of order from the Revised Regulations.
On motion, the Convention agreed to hold a morning session from 9 till 2 o'clock, and in the evening at 4 o'clock.
A vote of thanks was, on motion, tendered to Rev. Dr. Tyng for his impressive and highly instructive Sermon; and that he be instructed to furnish a copy for publication.
Two communicators were presented from Right Rev. Bishop Onderdonk, which were not read.

The accession to the Whigs in the Western part of the State has been more than 1,392, by which vote Mr. Van Buren carried the State in 1840. The Whigs at the next Congressional election will also send eight of he fifteen representatives that this State is enitled to in 1842. Botts was defeated in the Richmond district by 33 votes. Langhorne in the Norfolk district by 5. Gilmer in the Halifax district by 100, and Toles in this (Lynchburg) district by 100, and Toles in this (Lynchburg) district by 120 votes. Take the recent spring elections as a test of the two parties and we will carry the above alluded to districts, varying from one to three hundred votes; I can speak for cerain that the talent d and indomitable Whigh R. H. Toles, will be elected from this district by 50 to 150 votes. Buckingham; the main Loco county, elected two Whigs to the Legislature last spring by 120 majority; it gave Hubbard, the present Representative in Congress 94 majority; Cumberland, Campbell and Lunenburg counties have increased their Whig majority since '42.

I can recollect when there were but few supporters of the Tariff in this State, but it is now quite different, and I venture the assertion that in ten years it will be a greater Tariff State than New York or Pennsylvania. The People begin to see that under the present Tariff the country has been gradually rising from its embarrass.

A Home Market is building up in our midst, and most articles of produce meet with a ready sale and command a better price than they did during the latter part of the wretched and disastrous ad-ministration of Mr. Van Buren; nearly every buy can be had lower, while their labor yields them a more certain and liberal return. Letter from Ex-Governor Seward.

AUBURN, August 19, 1844.
My Dear Six: After an absence virtually of two months, I enjoy two days' repose at home. Among the letters which awaited my return, was yours of the 3d inst. containing a warm and kind invitation to the Herkimer County Mass Meeting to be held on the 29th inst. My dear sir, I cannot accept this invitation. The summer is nearly spent; sere and yellow leaves are already seen in the forests, and my summer's work and gagements in Tompkins and Cortland Counties, and along the frontier, which will engross all the was an important step, under the circomstances, said the Rev. Dr. and he had no desire to see the proceedings of this body ridiculed or garbied, especially by the notorious print in question, and to which he had allusion.

Let the Whigs of Herkimer take courage. The Convention, or who were not invited, from its discordant sway of the opponents of Improvement, in the State, approaches its end. Protection of Home Industry, the policy of peace, com-President to know it, in all his experience in presid-ing over deliberative bodies, he had ever heard of an opponents. The blessings of peace are valued too highly by the American People to be thrown away for the extension of territory, while our population falls short by nine tenths of the capacity of our present jurisdiction.

Let the friends of civil and religious liberty

take courage. Religious intolerance is effectually rebuked. Mr. Horace Binney took the floor and epposed
the resolution in a powerful argument, contending
that the proceedings of all deliberative bodies should
be exposed to the public eye—that nothing was to be gained by any attempt to exclude any thing that might transpire here, from the community. He delied that there was the slightest necessity for sitting with closed doors, and shutting out the public generation.
